

Wolftank Adisa GmbH: corporate policy

As a global player selling and marketing state-of-the-art technical corrosion, water and environmental protection systems for the petrochemical and chemical industries, we are convinced that quality, occupational health and safety, environmental protection and energy efficiency are the key for the long-term existence and development of our company. Our main goal upon delivering our goods in accordance with the legal prescriptions in force is the trust and satisfaction of our clients, whom we consider our partners. To this end, we continuously strive to invest in new and innovative solutions of the very highest quality.

It is our declared goal to live up to our clients' expectations, provide competitive prices and at the same time minimise any environmental impact – because we owe it to society. And to deliver on this promise, we continuously enhance and improve our products and processes at all levels, ultimately aiming for a zero-defects strategy. It is with the highest-possible amount of efficiency and cost-effectiveness that we aspire to meet the requirements of the market.

We go to great lengths to ensure all our measures are in line with current technical standards, occupational medicine and any other insights of science and ergonomics. Safety in the workplace is one of our core values, and a safe working approach is and must be a top priority for every single one of our members of staff.

Because high standards are the very foundation of our products and processes, all Wolftank Adisa GmbH work is certified according to ISO 9001, ISO 14001 and ISO 45001 and subject to continuous optimisation efforts.
